

[WIT-1] [there is an issue during withdraw money from atm machine](#) Created:

22/Feb/23 Updated: 22/Feb/23

Status:	To Do
Project:	Withdrawalmoney
Components:	None
Affects versions:	None
Fix versions:	None

Type:	Bug	Priority:	Medium
Reporter:	PRADEEP PANDEY	Assignee:	Unassigned
Resolution:	Unresolved	Votes:	0
Labels:	None		
Remaining Estimate:	Not Specified		
Time Spent:	Not Specified		
Original estimate:	Not Specified		
Environment:	<ol style="list-style-type: none">1. Document the defect: Record the details of the defect in your project management or bug tracking tool. Be sure to include information such as the steps to reproduce the issue, the expected behavior, and the actual behavior observed.2. Prioritize the defect: Determine the severity and impact of the defect, and prioritize it accordingly. If the issue could potentially result in financial loss or harm to customers, it should be given the highest priority.3. Notify the development team: Inform the development team responsible for the ATM software about the defect. Provide them with the details of the issue and any relevant documentation. They can then investigate the issue and work on a fix.4. Retest the fix: Once the development team has fixed the defect, retest the affected test		

Description

when I entered the card that time it ask about my pin num .

steps to reproduce:

1. Insufficient Funds: Test what happens when a user tries to withdraw more money than they have in their account.
2. Invalid PIN: Test what happens when a user enters an incorrect PIN number multiple times.
3. Network Failure: Test what happens when the ATM machine is unable to connect to the bank's network.
4. Incorrect Withdrawal Amount: Test what happens when a user enters an incorrect withdrawal amount, such as a negative number or a value that is not a multiple of the allowed denominations.
5. No Dispensing of Cash: Test what happens when the ATM machine fails to dispense cash after a successful transaction.
6. Non-Dispensing of Correct Amount: Test what happens when the ATM machine dispenses an incorrect amount of cash.
